## **Midterm Project Progress Report**

Prepared by Fangyuan Lin SN:040912153 Submitted on 2018-10-10

# MILESTONES

# STATUS

# Header Product Signup

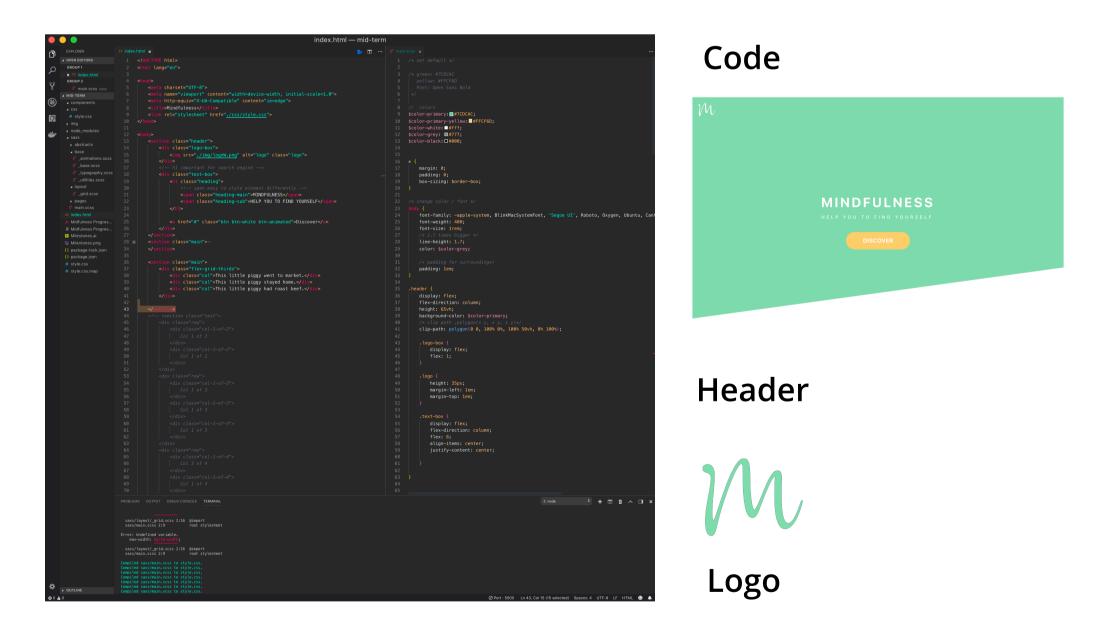

## **Progress:**

I divide my the whole website into three parts: Header, Product, Signup Form.

I have Completed the **Header** part (still work on the nav).

Now I'm working on the **Product** part, I choose to use grid or flexbox to code this part.

## **Screeshot:**

### Impediments:

- 1. Not sure how to correctly import scss files. Sometimes work , sometimes not.
- 2. I want to use Grid to make the website reponsive, but my code doesn't work.
- 3.Results show different in different browsers. I don't know how to make them look the same.
